Malus ×dasyphylla

Distribution

Habitus and growth type

Life form: **nanophanerophyte (macrophanerophyte)**

Leaf

Leaf presence and metamorphosis: **leaves present, not modified**
Stipules: **present**
Petiole: **present**

Flower

Flower colour: **white**
Perianth type: **calyx and corolla**
Calyx fusion: **hypanthium**
Inflorescence type: **corymbus**

Trophic mode

Parasitism and mycoheterotrophy: **autotrophic**
Carnivory: **non-carnivorous**
Symbiotic nitrogen fixation: **no nitrogen-fixing symbionts**
